

TECHNICAL BULLETIN

GP CLEAN

GP CLEAN is a high power spray concentrated liquid degreaser which will outperform most industrial cleaners.

GP CLEAN is formulated to cut through hardened grease and oil deposits quickly.

FEATURES

Instantly dissolves and emulsifies dirt from oil. Economical usage - used at 1:10 or 1:20 depending on the type of soil encountered.

Non inflammable and completely biodegradable. Inhibits against rusting and therefore safe to use on ferrous surfaces. Rinses freely without the problem of film forming.

GP CLEAN finds application in the removal of grease from exhaust hoods, air filters, concrete floors, road equipment, engines and other machinery.
